Questions Answered Daily

AI-Powered Instructional Creation

Create, adapt, and improve instructional materials in seconds.

Generate curriculum-aligned activities instantly. Adapt content for diverse learners and analyze learning gaps automatically so teachers can focus on instruction rather than preparation.

AI Create AI Enhance AI Analyze Chrome Extension AI Grading

40M+ Ready-to-Use Instructional Resources

A flexible library built for daily instruction.

Explore over 40 million teacher-created resources including quizzes, lessons, passages, flashcards, and interactive videos. Search by grade, subject, or standard to quickly find materials that support your curriculum and daily instruction.

40M+ Resource Library Curriculum-Aligned Content Multi-Subject Coverage Multi-Grade Coverage Multiple Activity Formats

Interactive Instructional Formats

Deliver instruction in the format that fits your lesson.

Deliver instruction through assessments, presentations, passages, interactive video, and adaptive flashcards, with built-in checks for understanding that keep students engaged.

Assessments Presentations Passages Interactive Video Flashcards

Data, Reporting & Grading

Track learning progress at the student, class, school, and district level.

Access detailed reports that help teachers identify learning gaps, monitor student progress, and guide reteaching decisions. School and district leaders gain visibility into instructional performance and learning outcomes across classrooms.

Student-Level Reports Class, School and District Level Insights Longitudinal Growth Graphs LMS Grade Sync Admin Dashboard Standards-Based Reports

Built-In Differentiation & Accommodations

Support diverse learning needs.

Support diverse learning needs without creating separate versions of assignments. Set accommodations such as extended time, Read Aloud, translations, and Focus Mode once and apply them across activities. Includes 25+ Accommodations for diverse learning needs.

All 25+ Accommodations Read Aloud Extra Time Translate 30+ Languages

Flexible Instruction Delivery

Teach any way you want—live, async, or on paper.

Choose from multiple delivery modes to match your classroom model. Teachers can run live sessions, assign independent practice, deliver instructor-paced lessons, or use paper-based activities.

Live Mode Self Paced Mode Instructor-Paced Mode Paper Mode Test Team Homework Mode

Standards & Curriculum Alignment

Ensure instruction stays aligned with learning expectations.

Search the entire library by standard or curriculum. Tag your own content for consistent tracking, and generate standards-based activities and reports that help teachers track student progress.

20+ Question Types

Assess deeper understanding, not just recall.

Move beyond multiple choice without moving to manual grading. Graphing, hotspot, drag-and-drop, math response, audio and video response and more — students demonstrate understanding in formats that best reflect their thinking.

- Multiple-choice
- Fill-in-Blank
- Math Response
- Graphing
- Hotspot
- Labeling
- Drag & Drop
- Reorder
- Match
- Audio/Video
- Drawing
- Categorize
- Open-ended

Engagement & Gamification

Increase participation while maintaining academic rigor.

True progress isn't measured by engagement stats alone — it's those moments when concepts click and confidence grows. Game-based features like Power Ups, Mini Games, Brain Gym, and avatars increase engagement and participation while maintaining academic focus.

- Power Ups
- Mini Games
- Brain Gym
- Memes
- Avatars (Qbits)
- Game Modes

Secure Single Sign-On

Secure access with existing school credentials.

Students and teachers sign in with credentials they already know—Google, Clever, or ClassLink. Automatic roster sync means classes are ready from day one.

- Google SSO
- Clever SSO
- ClassLink SSO
- Microsoft SSO

LMS & Classroom Integrations

Works seamlessly with your existing learning ecosystem.

Wayground integrates with leading learning management systems and classroom tools so teachers can assign activities, sync grades, and manage rosters without leaving their LMS.

- Google Classroom
- Canvas & Schoology
- Microsoft Teams
- Clever Rostering

Enterprise-Grade Privacy & Security

Built to meet the data protection standards required by schools.

Signed SDPAs, FERPA compliance, and enterprise-grade security trusted by 90% of U.S. schools. Make resources private, control access at the school level, and adopt with confidence.

- GDPR Compliant
- FERPA Compliant
- COPPA Compliant
- Instructure Level 3 ESSA

Collaboration & Educator Support

Enable collaboration across classrooms and departments.

Build a Shared Library schoolwide, enable Co-Teaching for shared content and progress, and organize educators into Teams. Every School Plan includes a dedicated CSM, custom PD, and educator certifications.

- Shared Library
- Co-Teaching
- Teams
- Dedicated CSM
- Custom PD
- Certifications

One instructional tool, one budget

Reduce the cost and effort associated with a distributed tech stack. Integrate with your LMS or rostering tool and consolidate everything that adds complexity to your instruction.

Institutions use *Wayground* to replace these tools:

"Wayground is quite epic! So easy to browse for any topic for whichever subject and find some great ready-made resources! Things are graded automatically for you and you can easily see in reports how your kids/classes are going."

Melissa Aveling | Mathematics teacher
Bishop Mackenzie School
